WHAT DO GRILLO SUPPLY?

ELECTRICS POSITIONING

Example install diagram:
Large units are 1200 x 610mm.
Small units are 610 x 610mm.

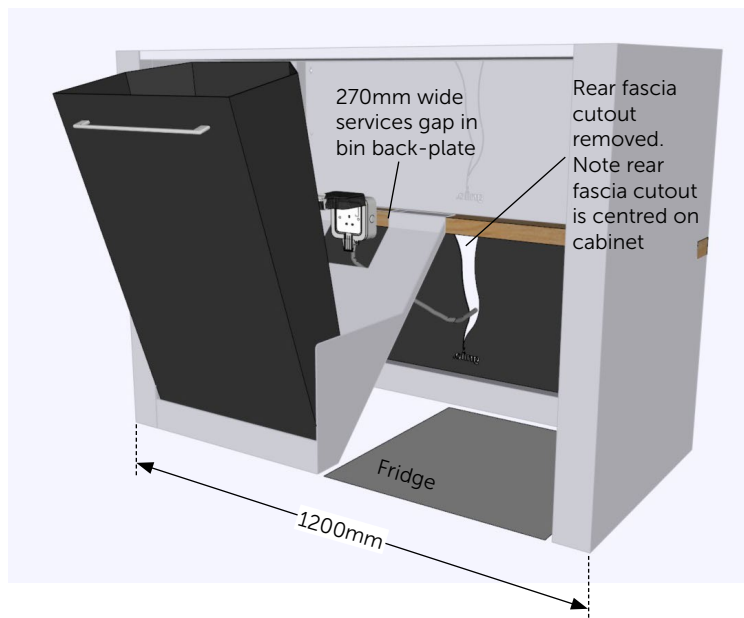

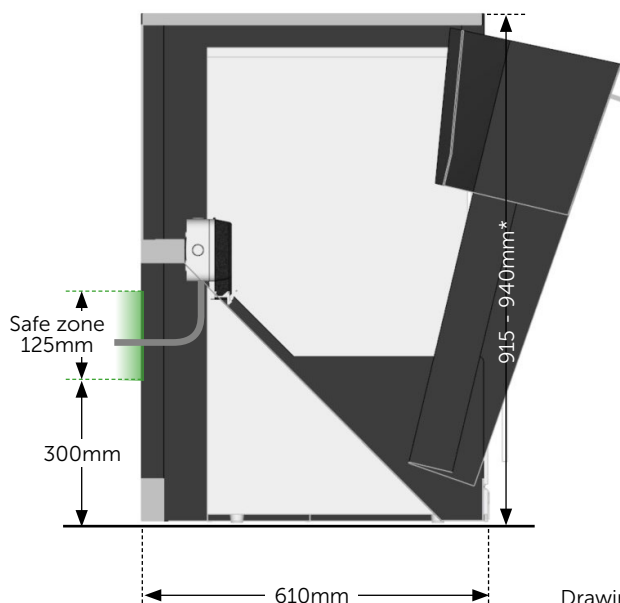

OUTDOOR RATED SOCKET - LOCATION OPTIONS

Appliance supplied with UK, US or AU plugs, according to country of order.

Option 1

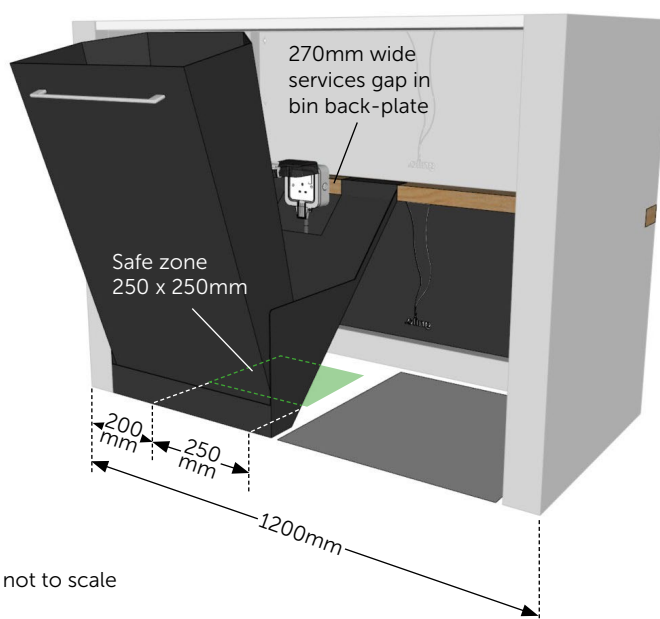

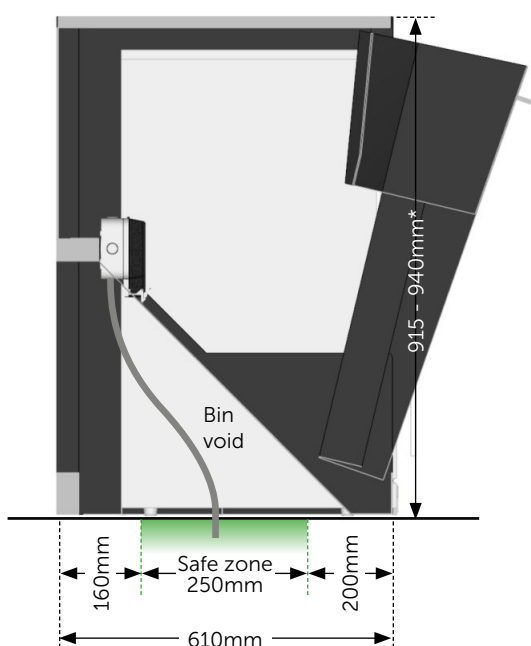

Run the cable through the rear fascia by removing the cut-out. Fix the outdoor socket onto the timber in the services gap of the back plate behind the bin.

Drawings not to scale

Option 2

Run the cable into the void beneath the bin through the floor as shown below. Then fix the outdoor socket onto the timber in the services gap of the back plate behind the bin.

Drawings not to scale

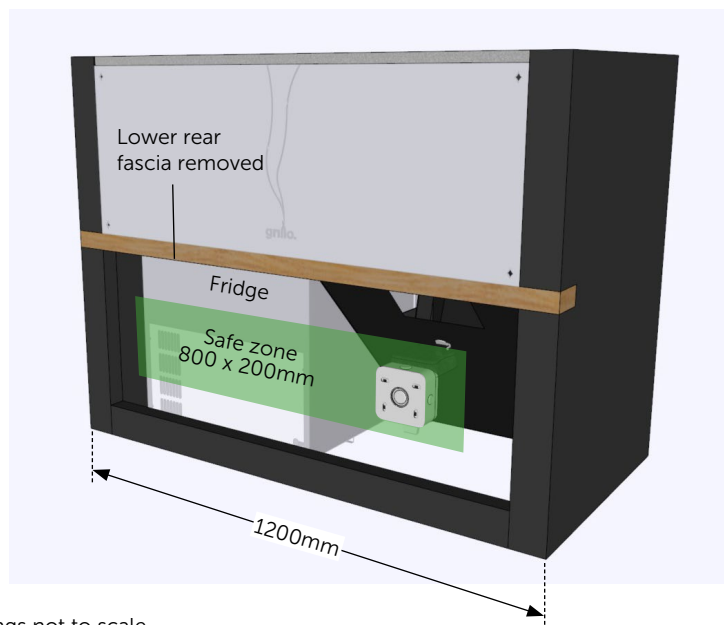

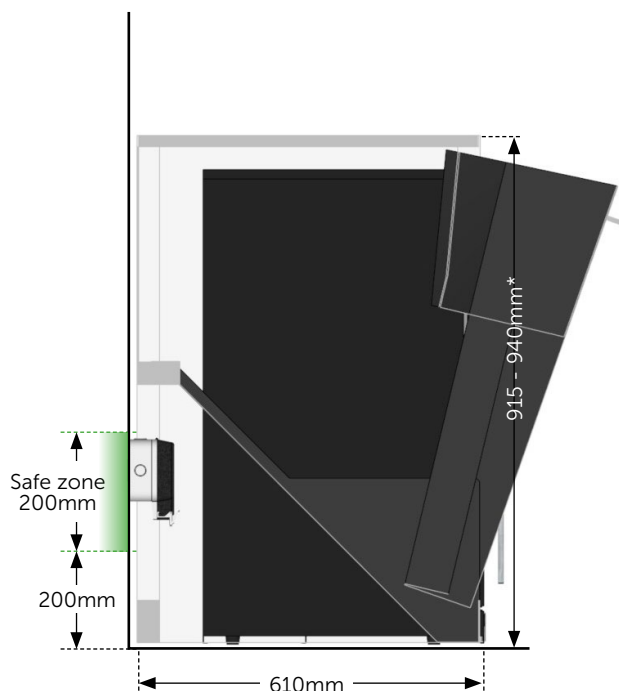

*The height variation is for adjustment in the cabinet feet.

Option 3

If the kitchen is going to be placed against a wall, you can remove the lower rear fascia completely. This will allow you to install the outdoor socket on the wall. We only recommend this if none of the back of the unit will be seen.

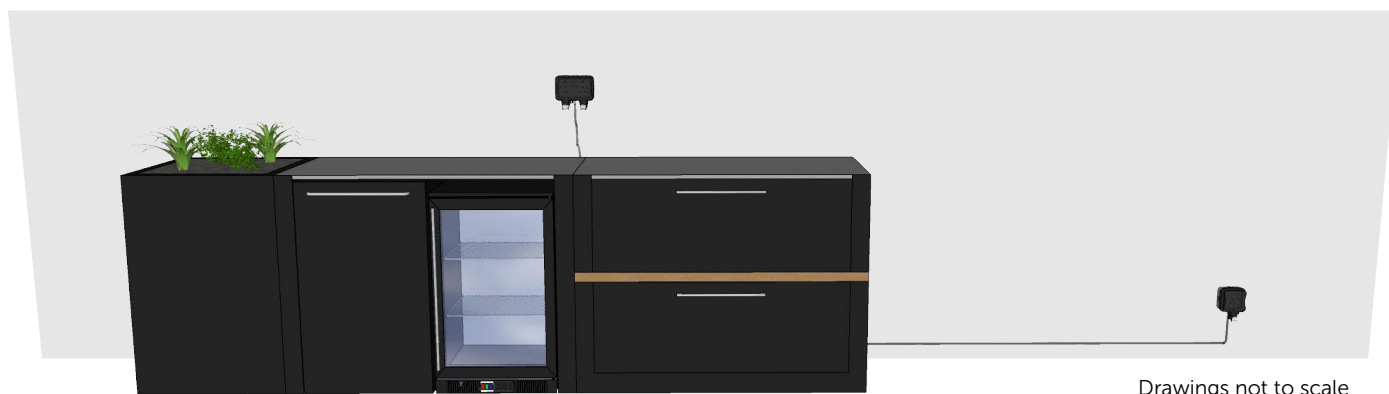

Appliance supplied with UK, US or AU plugs, according to country of order.

Drawings not to scale

Option 4

Locate the socket anywhere within 3.5m of the fridge itself.

*The height variation is for adjustment in the cabinet feet.
